

### 7.3 Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust (2019-2020)

The vision of our institution focuses on constant evolvement of its students in physical, mental and spiritual wellbeing in the field of academics, sports and culture. The college is based in the taluka of Canacona, a remotely located rural place with population belonging to mostly marginalized people belonging to ST/OBC/Economically Backward and a tribal population burdened by Economic Challenges and social deprivation where Higher Education was a 'distant' dream to be pursued by elite and a fervent few in neighbouring taluka and neighbouring states.

The institution runs on one motto, "*Tamso ma jyotirgamaya*" i.e. to lead the society from darkness and ignorance towards enlightenment.

In a rural and backward taluka of Canacona, with its first generation learner's, the College promotes student centric education by using modern teaching-learning tools and techniques, to prepare students for future, and make them responsible and sensible citizens by involving them in innovative workshops, trainings and courses on regular basis.

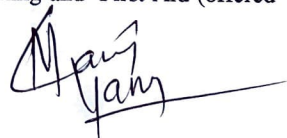

College was established with distinctive approach towards the comprehensive vision by practically involving students in different activities which help them to emerge as global leaders with local roots. Shree Mallikarjun College has three dimensions:

- 1) Excellence in academic
- 2) Exploring local knowledge, culture & tradition
- 3) Development rounded personality with global vision social responsibility.

Student's centric environment helps the students to dream high and be committed to their studies. The teachers, enables them to visualize the career opportunity and guide them to achieve their goals. College is socially committed faculty and students are involved in major research in the field of local village and tribal knowledge culture and tradition. There is synergy between research and education activities Research base learning and teaching activities takes place in the campus throughout the year. Course based project, social impact project NSS and NCC activities, certified courses are inter-disciplinary and help the society.

Community service and its up-liftment is one of the priorities of the institution. 46.70 % of the students in the institution belong to the tribal belt and tribal community of the region. These students are provided with value based and learner-centric education by the institution to build the capacity of becoming lifelong learners.

Some courses have been added in order to make available opportunities for skill development and value addition to the students. The courses range from Foundations of Mathematics, Statistics , Aptitude test, Soft skill techniques and Travel and Tourism Management, Civic Education, Personality Development, Film Making and First Aid (offered

by the Physical Education department). These courses include hands-on-training in some areas and have helped the students to enhance their employability skills.

The institute believes in collaboration and working with multiple partners, including Different Foundations, NGOs, Corporate and Government organizations, which are joined through an MOU with. This is taken up to improve the quality of education in terms of Excellence, Modernization, Collaboration and Self-reliance which are the four most crucial elements in the development of Higher Education and to reduce the gap between industry expectations (practice) and academic offerings (theory) by direct involvement of industry to attain a symbiosis.

The institution aims to create a hub for the marginalized section of society by giving them opportunities to bring forth their talent and channelize it for the community's betterment. Our students from the tribal areas are trained by skilled instructors to develop a positive attitude towards life.
