Brief Report

CA Pradeep Kakodkar in his presentation covered that CA exams are considered to be one among the toughest courses and to become a CA aspirant one needs to go through the four levels of Chartered Accountancy course – CA Foundation (CPT), CA Intermediate, 3 Years Articleship as well as clear CA Final exams. The pass percentage is considerable low in comparison to any other professional courses. As the course contents are vast and the difficulty levels are high, it is often found that students usually give up on pursuing CA. The students are required to be constantly motivated and need the drive to push through all barriers. It needs constant hard work, dedication and perseverance to be able to succeed in the professional exams. It is in this context that a session by an eminent Chartered Accountant was organized, so that the students are motivated and do not give up on their professional journey. The speaker shared tips to successfully crack professional level exams. Some of the tips shared by the speaker are as follows:

- Prepare and follow a schedule inevitably.
- Refer the latest study modules and engage in lifelong learning.
- To stay away from daily distractions like mobile phones, TVs, etc.
- A perfect goal statement, time management and the right attitude to be able to go on
- Enhance the basics and bring in conceptual clarity
- Grease the wheels for yourself with review and revision.
- Identify strengths, weaknesses and practice more of ICAI MTP & RTP.
- Right guidance, constant motivation, unbreakable enthusiasm and balanced confidence raise your chances to clear the CA exams at the first attempt
