द्वितीय वर्ष कला शाखा में Paper Code HNS 101 / Skill Enhancement 'संभाषण कला' के अंतर्गत यूनीट II में सूत्रसंचालन का अध्ययन किया जाता है। विद्यार्थियों को सूत्रसंचालन के आयामों के बारे में व्यावहारिक रूप से ज्ञान प्राप्त हो इस हेतु (1 से 7 नवंबर, 2020) सात दिन की बहुभाषिक सूत्रसंचालन कार्यशाला का आयोजन किया गया। इस कार्यशाला का समय शाम 6 से 7:30 बजे तक का रहा। इस कार्यशाला में लगभग 174 प्रतिभागियों का पंजीकरण हुआ। ऑनलाइन पद्धति से सूत्रसंचालन पर आयोजित की गई यह पहली कार्यशाला थी यह सर्वसम्मत माना गया।

इस कार्यशाला का उद्घाटन उत्सव म्यूजिक चैनल के संस्थापक श्री. चर्चिल पंडियन ने ऑनलाइन से संप्रेषित किए गए संदेश द्वारा हुआ। 'सूत्रसंचालन यह एक कौशल है जिसे विभिन्न तरीकों से चैनलाइज किया जा सकता है। सूत्रसंचालक टोन सेट करता है। वे मेहमानों का तथा मुख्य सितारे अपने परिचयों के साथ अद्भुत दिखने कॉम्पेरिंग में विशिष्टता एक विशेष कौशल है। गोवा वास्तव में भाग्यशाली है कि छात्रों के लिए सात दिवसीय कार्यशाला आयोजित की जा रही है। गोवा के कई प्रमुख और साथ ही अन्य राज्यों से संबंधित सूत्रसंचालक निर्धारित सत्रों में छात्रों का मार्गदर्शन करेंगे। ज्ञान प्रबोधिनी मंडल के बोर्ड सदस्यों के लिए मेरी हार्दिक प्रशंसा। श्री मल्लिकार्जुन और श्री. चेतन मंजु देसाई महाविद्यालय, काणकोण गोवा के प्राचार्य डॉ. मनोज कामत, हिंदी विभाग प्रमुख, डॉ. रूपा चारी और हिंदी विभाग की रिसोर्स फैकल्टी के प्रति बधाईयां। कई प्रतिष्ठित शास्त्रीय घटनाओं के प्रवर्तक होने के नाते, मैंने पिछले दो दशकों से देश भर में मंच और टेलीविजन के लिए कई संगीत और प्रस्तुतियों की परिकल्पना की है, मैं अपनी शुभकामनाओं को पारित करने के लिए बहुत खुश हूँ और मुझे यकीन है कि यह सभी प्रतिभागियों के लिए एक बड़ा बढ़ावा होगा। मुझे यकीन है कि यह एक बड़ी सफलता होगी और राष्ट्रीय और अंतर्राष्ट्रीय स्तर पर आगे बढ़ेगी। मुझे आप सभी को संबोधित करने के लिए वहाँ रहना पसंद होगा लेकिन महामारी की स्थिति ने इसे असंभव बना दिया है। फिर भी मेरे विचार और शुभकामनाएँ आपके साथ हैं। इस अनोखे उद्वेग पर सभी को शुभकामनाएँ।

प्राचार्य डॉ. मनोज कामत ने कार्यशाला संकल्पना और संयोजन के लिए विभाग प्रमुख और विभाग के सदस्यों को बधाई दी। मीडिया के बढ़ते प्रचारकाल में सूत्रसंचालन शौक न रहकर जीविकोपार्जन का साधन बन गया है। विद्यार्थियों को सूत्रसंचालन के लिए आगामी को सीखकर अपना कौशल दिखाना चाहिए। इस मत का प्रतिपादन किया। अपने भाषण में सभी प्रतिभागियों का स्वागत करते हुए प्राचार्य डॉ. मनोज कामत ने कहा कि स्वयं के विकास कौशल के लिए इस कार्यशाला को अपनाएं।

इस कार्यशाला में अनेक संसाधन व्यक्तियों ने मार्गदर्शन किया।

1) गोविंद भगत

सूत्रसंचालक कार्यक्रम का सूत्रधार होता है। सूत्रसंचालक का हर शब्द कार्यक्रम की दिशा और दिशा ठहराता है। सूत्रसंचालक के लिए लिखना और पढ़ना अत्यंत आवश्यक रहता है क्योंकि

संभ्रमंडार के बिना वह अधूरा रह जाता है। इसी के साथ मुद्राभिनय, देहबोली भी पठन, मनन और चिंतन में आवश्यक ठहरायी जाती है।

- 2) श्री. अनंत अग्नि ने अपने व्याख्यान में सूत्रसंचालक के लिए कार्यक्रम के पहले किन बातों का ध्यान रखना होता है यह विस्तार से स्पष्ट किया। मंच पर आसन व्यवस्था, दीप प्रज्ज्वलन की सामग्री, अतिथियों के नाम, कार्यक्रम की रूपरेखा, पुष्पगुच्छ प्रदान करना, नाम का सही उच्चारण आदि के बारे में कितना सतर्क रहना चाहिए यह बताया।
- 3) सिद्धी उपाध्ये ने आवाज और ध्वनि नियंत्रण के बारे में बताते हुए यह कहा कि सूत्रसंचालन करते वक़्त ताल, लय और ध्वनि का संयोजन ठीक तरह से हो तो सूत्रसंचालन का सौंदर्य बढ़ता है। कार्यक्रम के स्वरूप को पहचानकर सूत्रसंचालक को आवाज और ध्वनि नियंत्रण में संयोजन करना जरूरी होता है। थियेटर कार्यक्रम, खुले मैदान में आयोजित कार्यक्रमों के अनुसार आवाज की गति का ध्यान रखना कितना जरूरी होता है यह स्पष्ट किया।
- 4) हेतल गंगानी ने अपने वक्तव्य में सादरीकरण में सूत्रसंचालक को कितना तत्पर रहना आवश्यक है यह बता दिया। सूत्रसंचालक कार्यक्रम को संप्रेषित करता है और मंच पर घटित होने वाली सभी क्रियाओं का श्रोता / पेशक अथवा दर्शक तक पहुंचाने का सक्रिय काम करता है।
- 5) डॉ. रूपा चारी ने सूत्रसंचालन में आए कुछ महत्वपूर्ण अनुभवों को प्रतिभागियों को बता दिया। अनुभव अच्छा हो या बुरा, लेकिन सूत्रसंचालन में उसका कितना महत्व सालों पहले था और आज भी है वह स्पष्ट किया।
- 6) पंकज नमशिकर ने इवेंट मैनेजमेंट में सूत्रसंचालन का स्वरूप कैसे रहता है यह उदाहरण के साथ प्रकट किया।
- 7) श्री. मोहन शिरसाट ने सूत्रसंचालन में कितना तारतम्य होना जरूरी है इस मुद्दे पर प्रकाश डाला।
- 8) संगीता अभ्यंकर ने सूत्रसंचालक को मास मीडिया में अपना स्थान कैसे बनाकर रखना है और कार्यक्रमस्वरूप में उसका पालन कैसे किया जा सकता है यह स्पष्ट किया।
- 9) श्री. आनंद प्रकाश सिंह ने ' मैं सूत्रधार हूँ ' विषय के अंतर्गत सूत्रसंचालक सम्पूर्ण कार्यक्रम का कितना महत्वपूर्ण हिस्सा होता है यह सुमधुर भाष्य में बता दिया।
- 10) भाषासौंदर्य ध्यान में रखकर सूत्रसंचालन करें तो सूत्रसंचालक का सौंदर्य बढ़ जाता है यह वक्तव्य डॉ. पूर्णानन्द चारी ने दिया।
- 11) आकाशवाणी में निवेदन का स्वरूप कैसा हो, लहजा कैसे हो यह 92.7 बिग एफ. एम. के आर. जे. उदय चारी ने बता दिया।

इस बहुभाषिक सूत्रसंचालन सात दिवसीय कार्यशाळा में डॉ. मुक्तेश चंदर, Special Commissioner Operations and Licensing, Delhi Police ने अपनी उपस्थिति दिखाई।

साथ ही गोवा और महाराष्ट्र के अनेक इच्छुक नाटककार , कवि , नाट्य दिग्दर्शक, आलोचक, लेखक, संपादक ने भी सहभाग लिया।

बहुभाषिक सात दिवसीय सूत्रसंचालन कार्यशाला के सातवें दिन ई-प्रमाणपत्र सभी प्रतिभागियों को वितरित किए गए ।

इस कार्यशाला के प्रति प्रतिक्रियाएं सभी प्रतिभागियों ने ई- फीडबैक फॉर्म द्वारा प्रकट कीं ।

A VOCATIONAL COURSE IN BASICS OF FILM PRODUCTION

1. INTRODUCTION

1.1 Purpose of Module/Course

The role of Entertainment is important in our lives. The Film Industry is a thriving industry with multi-million rupees of turn-over. This profession is lucrative and accommodates creates talents across the spectrum from scrip-writing, cinematography, direction, production, lighting, editing, PR, etc.

The purpose of this course is to introduce the learners to the exciting, innovative world of film production so as to empower them to avail opportunities in this field. The competency of these learners will give them the confidence to go forth and utilize their talents. The **Entertainment Society of Goa** is the core body behind the National & State Festivals. International Film Festival of India is, incidentally hosted, by the state of Goa and the **Course Coordinator** has been actively involved in the same. Thus, his experience, expertise and networking will increase the net worth of this course.

1.2 Higher Education Qualification Level and Credit Value

It is expected that the learner will have passed the qualification exam of HSSC to be eligible for this course which is run by the college specifically for college students. A **Proficiency Test** will be conducted to assess the educational level so as to make the entry of everyone possible. A **Bridge Course** will be devised to facilitate those with lower proficiency to gain access to the advantages of this course.

The Credits assigned to this course of **30-hours duration** would be **TWO**. However, it is advisable for the learners to pursue this course for the

opportunities for gainful employment it offers rather than the credits one can acquire

A multi-lingual participant in this course would have the added advantage of being exposed to media in different languages as well as the learning resources.

1.3 Assumptions of Prior Learning (or Learning assumed to be in place)

Prior Learning for this course would involve knowledge of Computer Basics, basic familiarity with Photo-Editing, Video-Editing tools, exposure to wide variety of audio-visual formats etc

2. OUTCOMES

2.1 Specific Intended Outcomes

As a result of active engagement with the course materials and processes, the learning outcomes include:

Knowledge of Audio & Video Editing, the role of lighting in films, editing and script-writing, casting, film-making techniques and tools, different software available for audio and video editing etc.

2.2 Critical Cross-Field Outcomes

The Critical Cross-Field Outcomes Include:

- ❖ work in a team
- ❖ organize and manage themselves
- ❖ communicate effectively
- ❖ use science and technology
- ❖ reflect on and explore effective learning strategies
- ❖ be culturally and aesthetically sensitive
- ❖ explore education and career opportunities
- ❖ develop entrepreneurial opportunities

3. TEACHING METHODS

The teaching methods, aids, approaches would include:

Theoretical Background through Lectures backed by Books in Print and Digital Form, Guest Lectures from Industry

Practical Exposure through Video Clips, Video and Audio Editing,

Use of LCD/DLP Projectors, Video Camera, Digital Camera etc.

Visits to Recording and Editing Studios etc.

Discussions and Film Appreciation Workshops etc.
Links to important aspects of the course on You-tube.

4. COURSE/ MODULE CONTENT

This section is about making explicit what 'knowledge' your students need in order to achieve the outcomes you have specified. You could provide a list of topics/subject areas to be covered with a brief explanation (one or two sentences) of each. It is important to consider the most appropriate sequence for introducing topics and how much time should be spent on each topic. If a course is broken down into a number of smaller modules, you could indicate the approximate credit value of each module.

INTRODUCTION TO BASICS OF FILM PRODUCTION

7. EVALUATION OF MODULE AND/OR TEACHING

The completed assignments would be viewed by the Participants as well as general public. The feedback from them would be discussed in open forum for appreciation and improvement. Selected works would be uploaded on College You-Tube Channel for mass viewing and critical appreciation. Feedback on the teaching-learning process would be obtained from experts in the industry for improvement.

8. CAREER OPPORTUNITIES:

Local TV Channels require Newsreaders, scriptwriters, technicians etc. This void can be filled by those who undertake this course. A minimum of 3 feature films per year are produced in Goa, apart from short films and documentaries. Goa is also a preferred shooting location for Bollywood and others. This opens up opportunities for the deserving, talented and those who have a sound background of this industry. Our products will be valued by these people. Critical Cross Field Applications are when the learners are gainfully employed in other fields but can utilize their experience and expertise to be better in their chosen endeavors. A teacher, for instance, can use the knowledge acquired in this course for enhancing quality of teaching-learning by creation of audio-visuals to support learning. The support of the Government through various schemes can be garnered by those with experience and expertise or at least a sound background in the industry. Our participants stand a better chance of being ENTREPRENEURS in the film industry.

'Lena' for Dena

Merger is a step towards consolidation of state-run banks

On Sept 17, the government announced plan to merge three public sector banks, Mumbai-based Dena Bank, Bengaluru's Vijaya Bank, and Gujarat headquartered Bank of Baroda (BoB). This move is in tune with the 2019 budget announcement of consolidating banks and an attempt to signal market seriousness of the government in pushing up reform agenda with elections soon approaching. This announcement stunned the markets as it perceived this move as government shirking its responsibility in cushioning the banks when they need most. Accordingly, the Sensex displayed negative sentiments over the move and shed 300 points, the overall banking sector-specific indicator Bankex lost sheen while the State Bank (SBI) lost 4 percent individually.

Public Sector Banks (PSB) as a whole dominate the Indian banking sector, accounting for about 70 percent of total deposits in the system and 63 percent of loans. The merger of these three lenders among the PSBs follows the merger of State Bank of India and its associate banks in 2017. In February last year SBI merged with its five subsidiary banks helping it become the country's largest lender. The merger helped the SBI to increase its scale, consolidate its assets and cut expenses through synergies. With the announcement of new merger of three banks the merged entity will compete with SBI in the PSB space.

The SBI merger increased concentration in Indian banking and the proposed merger will increase it further. After the merger, India will have only 19 PSBs on its roll. Compare this with other economies. The US has nearly 7,000 banks, Germany over 1,000 and 300 in case of Spain. Thus if one argues that the proposed merger due to hav-

ing 23 PSBs that is too big a number for the government to handle, the excuse is absurd and untenable. But markets act on logic. The three listed banks lost Rs 20,000 crore in market value with the BoB suffering the most by losing 16 percent and Vijaya bank lost 6 percent.

Synergy effect or bail out?

The new merger will create India's third largest bank behind the SBI and HDFC Bank with a total business of more than Rs 14.82 trillion with a market share of about 7.2 percent in deposits and 6.8 percent in loans and would make it the second-largest bank by deposits and the third-largest by loans. The combined entity's capital adequacy rating will be at 12.25%, with tier 1 capital at 9.32% and net NPAs at 5.71%. The Vijaya Bank has strength in the South while Bank of Baroda and Dena Bank had a stronger base in Western India. This will help the combined entity to have 9,488 branches and a new name.

One of the reasons for choosing these three banks was that the two stronger ones will be able to absorb the weaker entity. The Dena bank is the weakest of the three. It has a pile of bad loans, inadequate capital and has not been profitable over last couple of years. Its business is close to 1.72 lakh crore employee base of 13400 people. Dena particularly has the highest NPA ratio and the lowest capital ratio. The non-performing assets (NPA) ratio in the quarter ended June 30, 2018 stood at 11 and among the industry is the highest with its Return on Assets at negative 2.43 percent. In the last quarter ending June Dena Bank posted a net loss of Rs 721 crore against BoB's figure at Rs 328 crore while Vijaya Bank's at Rs141 crore. Dena bank is currently under intensive observation of the Reserve Bank of India (RBI) for last couple of months since May and was barred from lending any further or recruiting new employees. The merger is thus rightly seen as a bailout for Dena Bank.

Who gains?

The BoB and the Vijaya bank turn out to be the net losers in the deal. Both banks have been doing quite well with business of 10.29 and 2.39 lakh crore respectively. BoB has a strong employee base of 36561 and net NPA level of 3.4 while the Vijaya Bank has employee base of 15874 and NPA ratio of 1.10. From the government's point of view, the move will lead to a lower NPA ratio for the new bank at 5.71 percent. The return on assets (RoA) on an annualised basis for BoB and Vijaya has been 0.29 and 0.14 percent respectively which is way below the benchmark of 1 percent in banking. The merger by taking into effect the negative RoA of Dena bank, will drastically pull down the combined RoA to -0.02 percent, not significantly different from zero levels.

The markets reacted brutally, but were fair. BoB share price plunged a whopping 16 per cent to Rs 113.43 in Tuesday's trade, while Dena Bank hit upper circuit of 50 per cent, and Vijaya Bank settled at Rs 56.40, down 5.89 per cent. Research points out that consolidation is generally disadvantageous for stronger banks. Given that Vijaya is the strongest among all three, it will witness dilution in metrics in the merged entity which will be adverse for Vijaya bank prima facie. The merger of Vijaya Bank will strengthen BoB as it provides both diversification and scale and will be more or less neutral for the latter. Share price of BoB fell from level of Rs 130 to Rs 111 in last one month, the share of Vijaya that traded at Rs 55 as on 31st Aug and by the last week end plummeted to Rs 49 while for Dena it was around 16.50 and is at Rs 17.50 during the same periods. The merger is a step towards the consolidation of state-run banks, but we will have to wait to decide whether the synergies from the merger will result in operational efficiencies and better customer service. As of now it only seems to be an act of taking (dena) from BoB and Vijaya Bank to hand over (dena) to the Dena Bank.

Farmers in distress

Indian farms fragmented and holdings continue to be inequitably distributed

It was an irony of this century on the 2nd of October this year in India. This day is otherwise celebrated as the International Day of World Peace and also marks the birth remembrance of

India's two greatest vocal voices of the farmers and rural India, Hon. Former PM Lal Bahadur Shastri and Mahatma Gandhi. It was on this day that over 70,000 farmers from UP, Uttarakhand,

Haryana, Punjab and other parts of North India marching towards Delhi in protest against the ruling government were brutally beaten up, charged with water cannons, lathis and tear gas shells. The farmers had travelled for 7 days starting from Haridwar to raise their concerns but not allowed to enter the national capital.

Farmer's agony

A month back over one lakh farmers, agricultural and industrial labourers had gathered on Delhi's Ramilla Maidan with a set of demands. In March over 35,000 farmers walked bare foot to Mumbai from Nasik to Mumbai to gherao the Vidhan Sabha in protest. Not too long ago farmers in Rajasthan, MP, Andhra and Bihar poured milk and vegetable produce on the national highways to demand justified support prices while in the months of April-June last year farmers from Tamil Nadu protested in semi-nude condition shaving half of their moustache and head.

They drank urine, ate their own feces, kept mice and snakes in their mouth, conducted mock funerals, flogged themselves and carried skulls of other farmers, who had committed suicide due to debt pressure in another desperate bid to draw the government's attention towards their plight. All in vain.

The agitators in common demanded the implementation of the Swaminathan Commission's recommendations, requested higher support prices for their produce, a blanket loan waiver, lowering of electricity tariff and farm loan waiver among other things. Unfortunately nothing worked and all their voices remained unheard. From north till the south, farmers are in distress. Farmers are not

happy with the assurances given by the government if they have got at the least. Most of the agitating farmers didn't even get that.

Pressing problems

Farmers and agri-workers constitute half of our 1.2 billion populations and among which, the number of small and marginal farmers rose by about 9 million between 2010-11 and 2016-17 as per the Survey of the 10th Agriculture Census 2015-16 as released in September 2018. More shockingly the total area under farming fell from 159.6 million hectares in 2010-11 to 157.14 million hectares in 2015-16 amounting to an average holding of just little than 1 hectare each with a decline since 1970-71 and not enough to produce to sustain their families, explaining the rising distress in Indian agriculture. Indian farmers now have the shameful distinction of having the smallest landholdings in the world further Indian farms became more fragmented and holdings continue to be inequitably distributed. For instance, the small and marginal farmers with less than two hectares of land account for 86.2% of all farmers in India, but own just 47.3% in comparison those owning between 2-10 hectares of land account for 13.2% of all farmers, but own 43.6% of crop area.

The contribution of agriculture to the national income has come down to around 15 percent from more than half during the early decades after independence. In contrast, the urban and non-farm sector of the economy share of non-farm sources of income and employment has seen a corresponding expansion and has been growing at a much faster pace than the agrarian economy. Higher debt, ill access to credit, no support for crop insurance and poor irrigation is taking away the gains of higher productivity in spite of high production. When it comes to India's largest crop, rice, Chinese farmers tick nearly three times more productivity while for the same crop in Vietnam, Indonesia and Bangladesh it is almost twice as India.

Hard facts

Today, around 90.2 million agricultural household's dependent mainly on cultivation but out of these, about 52 percent households are under debt of an average Rs 47,000 per household. This is because not more than 6 percent of

the net bank credit goes to small and marginal farmers despite the government's promises to ensure easy loans. Same is the state about crop insurance.

It is found that only 42 percent small and marginal farmers have access to crop insurance and on many occasion they were given Rs 10-15 for damaged crop. The promise to provide short-term crop loans up to Rs 3 lakh has for long veined in the air and with respect to irrigation it is may be noted that only 46 percent of the land is irrigated with no adequate provision made to enhance the existing potential.

Over past few months the government's inability to maintain stability in diesel prices in India and has made tilling fields, harvesting, irrigation and transporting crops more expensive. Diesel has been dearer by over 35 percent much owing to the irrational and exorbitant increase in the excise duties when the international markets were at rock bottom. As the prices move northwards the excise cut of Rs 2.50 per litre merely seems like an eye wash. For most farmers the massive increase in petroleum and diesel prices over the past few months have eliminated all gains made by the MSP established by the government on crops recently. Chemicals like ammonia produced from natural gas and sulphur, a by-product of refineries have also risen with the increase in fuel prices. In addition the prices of vital fertilisers such as potash and phosphate have increased by over 25 percent leading to their further financial squeeze. The fuel price hike has thus significantly reduced the margins of farmers by around 40-50 percent.

The facts and the recent news coming from all corners suggest that Indian farmers are heading for a crisis.

The farm production seems to be growing but not productivity and certainly not the living conditions of the farmers. Pre-poll promises look hollow and farmers more desperate as the days are passing by. While the southern parts of the country have suffered due to incessant rains around 12 districts of Maharashtra today are under the sigh of drought. Farmers are more seen protesting on the roads. The plight is more pitiable and with farm concerns falling on deaf ears, the distress increases by bounds.

The IT Titans

Competitive spirit among TCS, Infosys present an optimistic picture for Indian IT & ITes industry

The competition between TCS and Infosys for the last few years has been very intense. Both the companies have been growing rapidly and have been competing for the top position in the Indian IT industry.

The TCS and Infosys have been competing for the top position in the Indian IT industry for the last few years. Both the companies have been growing rapidly and have been competing for the top position in the Indian IT industry.

Interestingly, for the first time in the Indian IT industry, the two IT companies have announced their March quarter quarterly results on the same day, i.e., 12th April, marking a competition between the two, in the industry.

The TCS and the Infosys

TCS and the Infosys have recently proved themselves as very interesting and out of the ordinary by posting significantly better results in the latest quarter. In the last quarter, TCS reported a 21.4 per cent increase in revenue, while Infosys reported a 21.4 per cent increase in revenue. Both the companies have been growing rapidly and have been competing for the top position in the Indian IT industry.

Both the companies have reported better growth in their revenue in the last quarter. TCS reported a 21.4 per cent increase in revenue, while Infosys reported a 21.4 per cent increase in revenue.

DR. RAMESH KULKARNI

compared with the previous quarter. TCS also reported a 21.4 per cent increase in revenue, while Infosys reported a 21.4 per cent increase in revenue. Both the companies have been growing rapidly and have been competing for the top position in the Indian IT industry.

In the last quarter, TCS and Infosys added new and profitable contracts. TCS added new and profitable contracts, while Infosys added new and profitable contracts. Both the companies have been growing rapidly and have been competing for the top position in the Indian IT industry.

TCS vs Infosys

The latest result suggests that TCS has fared well in relation to the Infosys. The performance of TCS with respect to revenue growth was 21.4 per cent while the Infosys it added 21.4 per cent respectively.

For the full year 2018-19, the net profit of TCS was higher by 21.4 per cent at Rs 3,472 crore, while revenue increased 14 per cent to Rs 1,46,466 crore. In comparison, for the full financial year Infosys' net profit declined by 2.8 per cent to Rs 15,410 crore, while revenue increased 17.2 per cent to Rs 62,575 crore.

On a revenue front, TCS performed relatively better. TCS reported 18 per cent year-on-year (YoY) rise in March quarter profit at Rs 8,186 crore compared to Rs 6,904 crore profit reported in the same quarter a year ago. The current figures are also better than the 7,981 crore compared to those reported by the analysts. The net sales of TCS for the quarter climbed 14.5 per cent to Rs 38,676 crore from Rs 32,075 crore last year.

TCS is also expected to beat Infosys in terms of revenue growth as well as margin performance in FY20. Infosys forecasts compressed margins for the year ahead at 21.81 per cent, much lower than its margin of 22.8 per cent margin in FY19. The outlook of Infosys is below as their investments in digital talent and its efforts toward localisation continue. For the TCS this is the strongest revenue growth in the last fifteen quarters and their current order book is bigger than in the prior three quarters, and their deal pipeline is also robust.

In the corresponding quarter of the previous fiscal, both companies had earned over one fourth revenue from the digital platform. In the March 2019 quarter TCS and Infosys earned 31 per cent and 31.8 per cent revenue from such services.

Measures in terms of employees TCS fared better. For TCS the employee headcount expanded by 20,062 to 4.3 lakh, while Infosys reported net addition of 26,016 to the headcount

of 26,016 in the past year. In the last quarter, TCS reported a 21.4 per cent increase in revenue, while Infosys reported a 21.4 per cent increase in revenue. Both the companies have been growing rapidly and have been competing for the top position in the Indian IT industry.

TCS now seems to have taken a lower but more profitable approach compared with Infosys. In the March 2018 quarter its operating margin measured by EBIT (earnings before interest and taxes) shrank by 50 basis points sequentially to 21.1 per cent, while Infosys reported a 110 basis points drop in this margin at 21.4 per cent. Further Infosys had reduced the target margin level for FY20 to 21.23 per cent from 22.84 per cent, which it had given for FY19 last year. The company has cited higher investment in digital platform as a major reason for the lower guidance.

In terms of the returns to shareholders, the TCS ticks again. TCS recommended a final dividend of Rs 12 per equity share per equity share of Rs 1 each of the company for financial year 2019. For the same financial year the Infosys board has recommended a final dividend of Rs 10.50 per share. After including the interim dividend of Rs 7 per share, the total dividend of Infosys will amount to Rs 17.50 per share.

Amidst the volatile currency market, intense competition, tougher times in obtaining H1B visas and rising pressure to increase hiring in the US market the two benchmark Indian companies have fared exceptionally well. Both the firms have also demonstrated considerable 'hunger' for acquisitions.

TCS had earlier acquired two entities, W12 a digital design studio based in London and BridgePoint Group, a US management consulting firm in the last year. Previously it had acquired French SAP service provider acquire Alt SA for 75 million euros (about Rs 533 crore) in 2013. Infosys on the other hand had acquired consumer insights agency WongDoody for USD 75 million last year while the other IT firm Wipro's investment in the digital space includes entities like Designit and Cooper.

The future may be challenging for TCS and the Infosys but the competitive spirit among the two present an optimistic picture for them as well the Indian IT and ITes industry for the future.

Of faults and failures

Lessons from a 'failed' entrepreneurship

TUESDAY, JULY 16, 2019

The names of V. S. Siddhartha's article shocked the entrepreneurship circles in India. Son-in-law of former Karnataka CM and former External Affairs Minister NM Krishna and owner of the famous Indian coffee chain Cafe Coffee Day (CCD), he is supposedly an ideal role boy indulged in his CCD staff for his 'failure' to create a profitable business model and thus, 'failing' them. The tragic exit of the noted entrepreneur leaves us with many lessons for entrepreneurship in the Indian context.

Pastor boy of Indian Entrepreneurship Awarded as the 'Entrepreneur of the Year' for 2002-03 by The Economic Times and as the 'Next Gen Entrepreneur' by India India in 2011, Siddhartha founded CCD owned by Coffee Day Global Limited and as a subsidiary of the promoter group 'Coffee Day Enterprises Limited' (CDEL) and opened the first CCD outlet in July 1996 at Bengaluru. As on July 2019 there are 1,364 CCD outlets across 26 Indian and abroad, in Austria (Vienna), Czech Republic, Egypt and Nepal.

The CDEL comprises six promoters including V.S. Siddhartha and his wife Malavika Hegde. The promoters jointly own equity shares amounting to 51.94 percent stake in the company. The remaining four entities in the promoter group: Devdarsini Info Technologies, Coffee Day Consolidations, Greenfield Coffee Estates and Shree Securities cumulatively own 17.13 percent shares. In addition six corporate bodies (mostly Private Equity firms) hold substantial stake in CDEL with 22.35 percent share. Among which, NIS Mauritius LLC an affiliate of Khwendeel (earlier New Silk Route) a growth capital firm, holds the maximum 10.61 percent. KKR Mauritius PE Investments Ltd is the second biggest overseas corporate investor with 6.07 percent share, while Marina West and Marina III based in Singapore are the remaining two overseas corporate investors, with 4.61 percent and 1.04 percent share respectively.

Debt ridden business

The consolidated borrowings of CDEL is pegged at Rs 6,247.38 crore as of on March 31, 2019. It is revealed that Siddhartha had a personal guarantee debt of Rs 1,001 crore, and this debt was primarily carried through three personal holding companies, Devdarsini Info Tech

ologies, Greenfield Coffee Estates and Shree Securities. It is also found that Siddhartha has pledged almost 40 percent of his shares from these companies. There, 4 personal holding companies through which more than Rs 1,200 crore worth debt of which over Rs 2,000 crore was borrowed since 2012. This puts the total value of known debt over Rs 14,000 crore.

Among the 6 Private Equity (PE) firms that invested in CDEL, three firms together remained invested for around Rs. 100 crore since 2010. Formerly PE firms remain invested for 4-5 years and then exit the company at a rewarding profit. These firms were not able to exit even in public offering of 2018, were looking for an exit route due to significant value diminution in their holdings, forcing Siddhartha to take fresh loan from friends to pay Start Just PE recently.

Siddhartha also claimed harassment by income tax authorities for blocking the deal in the form of attaching CDEL's shares on two separate occasions to block his IT firm the Mindtree's deal and then provisionally attaching shares his two million shares, although the revised returns had been filed. This episode added to his existing troubles.

A section of lenders, which includes private banks and foreign credit fund, had questioned the end use of funds and also CDEL's capacity to repay on time. Questions are also raised on final value of his assets, including the plantations land over spanning over 12,000 acres. Siddhartha had pegged the value of his plantation business at over Rs 1,000 crore which included the value of the land as well as timber assets (Silver Oak Trees) at over Rs 1,000 crore. These revelations confirm Siddhartha's purported statement in his last letter regarding the debt burden and pressure from one of the private equity partners that he could not cope with.

Implications on Entrepreneurship

CDEL had sold shares at Rs 328 per piece of its IPO. After the unfortunate article news and the speculations that followed, CDEL stock fell from Rs 391.60 on July 29th to Rs 99.45 on August 3rd, an erosion of around 90 percent in market capitalisation in just 5 days.

All lenders to the CDEL, including the PE firms are collectively bound to collect. In addition to the PE firms, many NBFCs like Aditya Birla Finance, DLF Finance, Shapoorji Pallonji Finance, Indus Indus, Axis Bank

and others have provided the personal guarantee. It is clear to see that the plantations business which is held privately by the deceased and his family. The business was not generating enough cash to service the debt standing debt, which led Siddhartha to resort to borrowing money. Having taken loans again and again, either at a higher cost to pay existing debt, leaving the tight liquidity conditions in the market for new borrowings making it difficult to do so.

The debt of Rs 14,000 crore has been shared by several broken hearts and will affect the one particular lender significantly but many of them are in a process of cutting downgrades. If the declared valuations of Siddhartha's plantation business are correct, the lending banks will have to take a haircut under and default companies will be brought by others at throw away prices. It is known that ICF Mutual Fund has already written off 50 percent of its investments in non convertible debentures issued by Coffee Day Natural Resources Private Limited (CDNRPL) and others will have to follow suit.

The entrepreneur admitted his 'failure' and this failure gives us four important lessons of entrepreneurship. First, not to operate at an unsustainable level, for a debt exposure of 11,000 crore one needs profit close to Rs. 1000 crore for a healthy payoff. The latest figure of revenue from operations from Coffee Day Global Ltd is Rs. 814 crore and net profit stand margin at Rs. 211 crore. This means the profit per CCD share per year is as pathetic as Rs. 210 lakhs per year or around Rs. 600 profit per share per day!

The second learning is that, clubbing of various unrelated businesses under one umbrella makes the success/failure of its core business. The firms have typically been affected due to unrelated diversifications. In this case Coffee related businesses accounted for about half the group's revenue while CDEL's other ventures, including wealth businesses, real estate and logistics, drastically dragged down the overall financials of the group.

Thirdly it must be understood that over leveraging and cross subsidisation of businesses can cause governance and legal issues. CDEL borrowed a lot to expand the outlets but lost other businesses, which meant their profits didn't grow in line with the revenue.

The last and important of course, is that about always keeping the valuations right to provide enough cover for high leverage. It is evident from above and we must not let

Sordid backdrop of Budget 2020-21

Finance Minister's absence from high-level meeting creates a buzz everywhere

The Hon. PM in the passing week called for focused efforts to discuss the agenda of the upcoming budget 2020. In the few days PM has held as many as 12 brainstorming meetings with different stakeholders, economists, sector experts, private equity and venture capitalists, business leaders and agricultural experts to thrash out appropriate policy interventions before the upcoming Budget.

These meetings are a part of a pre-budget exercise and seems as an attempt by the PM to hold the saddle to address the economic issues.

Finance Minister Sitharaman's absence from a high-level meeting convened by the PM and this created a buzz everywhere. In all the meetings Hon PM attended, the FM was conspicuous by her absence. More so because the PM interacted to discuss the issues facing the economy and measures needed to boost growth. The opposition took this opportunity to swipe at the Finance Minister over her absence "Here's a suggestion, next Budget meeting, consider inviting the Finance Minister," the Congress said on its official Twitter handle, using the hashtag "Finding-Nirmala".

Budget 2019-20

Union Budget 2019-20 was the first maiden budget of PM Nirmala Sitharaman. With an aim to take Indian Economy to USD 5 billion by 2024, her budget re-initiated steps for disinvestment of Air India, strengthening of NBFCs, offered incentives for startups and MSMEs, suggested a merger of 10 PSB's Banker into 4, proposed a merger of 3 PSU insurance companies into one, exempted startups from angel tax, approved disinvestments of 33 PSE's, and aimed to focus on overall infrastructural development. None of the afore-

mentioned measures have helped in reviving the economy, and incidentally not many among these could translate in to concrete action.

The efforts to remove the RTGS and NEFT charges, slashing of corporate tax rate to 22 percent with ef-

fect from April 1, 2019, also yielded no major benefits.

Sordid performance in the year 2019-20

The financial year 2019 was the worst in last 42 years. Even at 5 percent, the inflation-adjusted GDP growth rate is the slowest in 11 years, that is, since the time of 2008-09 of global financial crisis. By the measure of nominal GDP the current fiscal year's 7.5 percent growth is the worst since 1978, and far below than government's earlier projection of 12 percent. Indian state governments have a deficit equal to 3 percent of GDP, higher than the budgeted 2.6 percents. It is believed that the GST collections this fiscal year may grow only 4 percent and incidentally, slower than nominal GDP.

Manufacturing is likely to clock a 2 percent growth in 2019-20 lowest in 13 years, that is, since 2005-06. The construction sector is expected to expand only at 3.2 percent, registering a sharp decline from 8.7 percent for 2018-19 and this is a six-year low. The per-capita income is projected to grow at 6.8 percent in 2019-20, and will be the lowest since the new GDP series was launched taking 2011-12 as the base year.

Investment growth is at less than 1 percent, the lowest since 2004-05 in 15 years. Even during 2008-09 economic slowdowns the investment grew at faster pace. Retail inflation in India is nearing 6 percent, surpassing the central bank's medium-term inflation target of 4 percent. More specifically, there has been a sharp rise in food inflation and food poverty, this month from a year earlier.

The unprecedented decision to transfer Rs 1,26,051 crore as the RBI Surplus to Central Government is being termed as historical blunder. Several sectors such as real estate, aviation, automobile and construction sectors have suffered a constant decline in demand, as the FM often flip-flopped. On the other hand, the banking sector and financial services witnessed serious crisis due to rising NPAs and bad loans and squeezed credit limits. The Finance Ministry has also faltered on granting GST compensation to States delays to pass on the money is due to a slip in collections. The slip in collections is

directly attributable to slowdown in consumption making their positions precarious.

Tax collections bothersome

The net collection of both direct and indirect taxes has seen a significant decline translating in Centre's possible failure to meet its fiscal deficit target of 3.3 percent of the GDP. The net tax collection as of September 30, first six months of the financial year has been the lowest in the past five years. The government collected only Rs 6.07 lakh crore tax till September, far below its budget target of Rs 16.49 lakh crore.

In the first 6 months of the year the government has collected a total corporate tax of Rs 2.49 lakh crore this year so far, which is less than one-third of its full-year target of Rs 7.66 lakh crore. The FM's announcement of over 7 percent reduction in corporate tax to 25 per cent would lead to further fall in tax revenue collection. The personal tax collection till September 30 is over one third (Rs 2.13 lakh crore) of the total target of Rs 5.69 lakh crore for the fiscal year.

India's deficit for the April-September quarter stood at 95.3 percent of the 2018-19 budget estimates (BE) in the same period last year. Controller General of Accounts (CGA) data suggests that fiscal deficit for the April-October period touched Rs 7.20 lakh crore, which is 102 percent of the Budget Estimate of Rs 7.03 lakh crore.

The Finance Ministry has now asked the senior taxmen to increase GST collection to Rs 1.1 lakh crore for the last four months of 2019-20. In one of the four months, an ambitious revenue collection target of Rs 1.25 lakh crore has been set. Secondly the taxmen are also told to ensure revenue target of Rs 13.5 lakh crore with respect to direct tax collection. The government however has not ensured that genuine tax payers will not be troubled, creating an atmosphere of tax terror further fuelling negative sentiments.

The moral of the sorry story is simple. Big announcements in the upcoming Union Budget 2020 are unlikely and the Centre neither has the leeway to cut personal taxes nor does it have space to hike GST rates. Crafting budget for 2020-21 will certainly not be an easy task.

BY DR. MANOJ S. KAMAT

Tread cautiously, Hon Chief Minister

Fiscal health of the economy is certainly very worrisome

Dr. Manohar Parrikar

My detailed dissection of the Goa State Budget 2020-21 presented in the last week, highlights the placed priorities ranked by our bureaucracy despite the clear intentions of our young and energetic Chief Minister. Another closer look at the Budget Documents gives a feeling that our popular CM seems to be fighting the battle of fiscal crisis single-handedly, with the illogical demands of his colleagues in his Council and the insipid inputs from his Finance department.

Worrisome future

The fiscal health of the economy is certainly very worrisome. Without a clear roadmap for fiscal recovery, the finance department of our State has made the Goa State Budget 2020-21 as a very unserious and obligatory exercise.

The current budget projects the size of the State economy of around Rs. 92,000 crores through a budget size of around Rs. 21,000 crores. Despite the growth it projects for the next year and the rosy performance depicted in the passing year, budget fails to offer us any corroborative evidence of increase in unemployment, in investments, and spurt in domestic economic trade and commerce.

Given the fact that there has been a massive slump in mining, with nothing remarkable happening in tourism, manufacturing growth almost flattened and agricultural growth into negatives, there seems to be no serious thought process on what presently thrives the economic growth of the State, or what is and rather should be, the current source of income to Goans.

The Budget 2020-21 presents an average per-capita income of around Rs. 6 lakhs compared to national per capita income of less than Rs. 1.5 lakhs. Even if we assume that the actual population of Goa is probably twice than the actual presented figure of 15 lakh, our average per-capita income still works out to be double than the national average. Despite this higher per-capita income our own-tax projected at Rs. 5845 crores for 2020 seems to be a meagre figure with our own tax revenue to GDP ratio working out to a mere 6.35 percent, compared to 10.9 percent for all-India levels. This mismatch of figures indicates glaring inconsistencies in our fiscal management, well reflective in budget 2020-21 making it seem a poor exercise. Our tax revenue collection thus proves to be insufficiently insufficient.

Similar is the case with our local savings rate. The local bank deposits in the economy as on March 2019 in Rs. 8900 crores, and given its average 10-15 percent growth over the years, it almost equates the domestic product of the State. Even if one assumes flat interest earnings of 7 percent on such deposits, the interest portion equals the gross monthly revenue of our State. This proves

Goans feel more secure and better off in invest and own rather than investing their virtual earnings in economy as fairly and

external deposits at around 20 percent in the total deposits generated in the State, which is roughly works out to be 12 percent of the present budget size, or 3 percent of our projected GDP. The above data thus prove that our economic growth in the State primarily derives from the increase in non-revenue generating economic sectors, or the informal sector that still remaining of the tax net, with the significant portions coming from non-economic sectors giving rise to the twining problems of rising unemployment and declining investments.

Our indirect tax collections have remained flat at around Rs. 2500 to Rs. 2600 crores for many years while the GDP projections have grown indicating drastic indirect tax leakages. The current budget precisely lacks seriousness to search new sources of revenue generation, and also to induce larger investments from the unproductive and idle savings of the Goans. The unorganised sector driving this growth is also left untaxed. No targeted interventions are seen to generate revenue from the core economic centres either.

No concrete measures

The budget enforcement seems further difficult given the last year's enforceability of revenue plan was just 31 percent. The total revenue of the government has never increased more than average of Rs. 9800 crore or at around Rs. 800 per month, and thus expected revenue of Rs. 13,300 in the next year looks pretty unrealistic. In comparison our expenses are close to Rs. 860 crores a month and in absence of any measures for a sizeable revenue increase we would have liked to see some concrete measures to curtail the unwarranted and wasteful expenditures.

The budget intends to be an employer for 1200 odd unemployed by further burdening the budget, rather than taking steps to facilitate employment in the economy. The unproductive junket tours (mainly tourism-related) could be done away with. The revenue leakages and rampant corruption in the River navigation, Transport department, and Government Corporations due to weak financial controls

needed to be plugged. The EDC, IDC, IF Corporation could be looked as good revenue centres while the Kafamba, GIDC, Goa Meat, Tourism Corporation and the Sanjeevani Factory should be monitored closely. The taxes on Casino industry, very often underreporting their footfalls revenue and turnover could have been revised upwards.

Many businesses like quarrying, sand mining, rent-a-cars/bikes, and destination weddings EDM festivals in the expanding unorganised sector could be brought under the tax net. The local self-governing bodies like the Panchayats and Municipal Councils could have been constrained to recover their pending arrears, while the excess in the salary accounts of government departments, corporations and allied institutions could have been rationalised.

Dr. Manohar Parrikar

the times seem in Goa's financial straits for our long trade ties and growth.

Without bothering to explain the borrowing of Rs. 20,000 crores, bearing about the revenue surplus, and the current merchandise trade surplus for the year 2019-20, capital income as per budget at glance is Rs. 4200 crore and lending is Rs. 2000 crore amounting to Rs. 2200 crore. To name this projected revenue surplus and the non-debt capital income which is Rs. 15,104 crore and Rs. 10,104 crore respectively, will together make up only Rs. 36,208 crore. Then the actual fiscal deficit will work out to over Rs. 4500 crore which is much more than what is projected by the government at 2.25 percent, at Rs. 2000 crore.

This hidden deficit in our plans undercuts the remaining budgeted capital expenditure in 2020-21 of Rs. 2000 crores making it actually less worth Rs. 18,100 crore compared to the last budget 2019-20. In this light the projected capital expenditure in the next year will be hardly Rs. 2000 crores and not Rs. 4500 crore, as projected in the budget.

In desperate measures to make up additional revenue, budget has increased prices of all the services that could affect tourism, and the cost of living. Unfortunately no concrete provision is seen for renovation and restructuring the state loans given consistent drop in repo rates over last two years. There also seems to be no immediate boost in infrastructure development, e-governance, inter-departmental online connectivity, warehousing and logistic support and employment generation. Much of the remainder part of the budget on announcements like the CMA, single window, administrative reforms, Convention centres or remains a cut and paste exercise from last previous 4-5 budget books.

Only ray of hope

Given the slower growth in the current and in most probability, the future slump in economy the only optimism for the upcoming year comes from the fact that the State expects to receive around 55 percent increase in grants from the Centre by the current year end 2019-20 compared to what is budgeted in the last year.

It is a fact that the State has received a bonanza from the Centre through an increase in Grants-in-aid by almost 137 percent in last 2 years from actual receipt of Rs. 840 crores in 2017-18 to expected (projected) receipt of Rs. 1935 crore crores in 2019-20.

Even if the government actually succeeds in receiving this expected sum from the Centre, the State is expecting a further increase of 22 percent in this aid for the remaining year. This is very optimistic expectation, and may be possible only if the same party government continues to remain in power in the State as well as the Centre. Lack of belief in this expected help doesn't come, the State coffers will be holed by another Rs. 4500 crore.

In the closing year it is expected that our Hon. CM will have to

शेतकरी आंदोलनाला आज ४७ दिवस पूर्ण होतील. थंडीत कुडकुडत दिल्लीसमीप भागात लाखो शेतकरी कटंबीयांसमवेत रस्त्यावर

शेतकऱ्यांकडून पिके खरेदी करत असतात. घागल्या गुणवत्तेचे पिक सरकारी शेतपिका जास्त किमती शेतकऱ्यांना देऊ केलेल्यासच शेतकरी विकसित, हे वास्तव ते खगतात. बिहार राज्यामध्ये याच तशी परिस्थिती नाही. कारण, तेथील शेतकऱ्यांना सरकारी किमतीअभावी फक्त खासगी खरेदीदारांच्या दवेवर पिक विक्री करणे, हा एकच उपाय असतो. बिहारमध्ये साल २००६ मध्ये शेवटची उत्पादन व विपणन संस्थे निकालात काढल्यानंतर, अशी परिस्थिती निर्माण झाली आहे. नवीन शेतकी कायदानुसार देशभरातील उत्पादन व विपणन संस्थे निकालात निघतात. कारण, खासगी मंडी मावैर भाडोनी निर्मिती होईल व खरेदीदारांना फक्त सरकारी मंडी-याडानु खरेदी करणे बंधकारक असणार नाही. या शिवाय बिधमान मंडी-याडानि खासगी मंडी-याडानिमाे कर स्टू- कर सवलती विद्यमान नाहीत. यामुळे बिधमान मंडी-याडानि व्यवसायात राहणे परवडणार नाही व बिचारी शेतकरी आपलेच खासगी छेड्यादुंग्या हावी पावतील, असो भीती शेतकऱ्यांना वाटते साहजिक आहे.

सरकारने बाजारात अस्तित्त्व राखणे किती महत्वाचे ठावे, हे दर्शविण्यासाठी अल्प कर्नाटक राज्याचे उदाहरण घेऊ. या राज्यात हुबळी खेरीदासाठी सरकारी आधारभूत विकत अस्तित्त्व आहे. गेल्या वर्षी या राज्यात १४ लाख टन तुरीचे उत्पादन झाले. सरकारने बाजारातून २.५ लाख टन तुर बाजारातून उचललेल्या खासगी खेरीदासाठी सरकारी धारणेला विविध वळत, किंवा किमान सरकारी दर देऊ करता व या विकासारी बाजारपेठा स्थिरावले. या विकासारी सरकारने मदत अस्तित्त्वाने नसली, तर खासगी सेवांकडून या शेतकऱ्यांची लक्ष्मी प्राप्तीच असती. योजक्यात १४ लाख टन उत्पादनांपैकी फक्त २.५ लाख टन अल्प विकत घेऊन सरकारने शेतकऱ्यांचे शोषण पांढरिते, असे म्हणता येईल. दुसरी उदाहरण पंजाब राज्यामध्ये असून उत्पादनाचे देता येईल. पंजाबात कृषि मंत्रालय आणि इतरांचे कपाळी खेरीदसाठी सरकारी आधारभूत विकत जाहीर करीत असता सरकारने राज्यात ३५ कोटी कपाळी खेरीद केले व खासगी खेरीददारांनीही तेवढी किमती देऊ केली. सरकारच्या या हस्तक्षेपाकित्ता दरदल व बाजारपेठाचे आर्थिक फायदे असले, हे निश्चित. [१०३]

देशांतल १५-७० कोटी देशवासींचे राष्ट्रीयमान श्रेणीय आधारित अमूल देशभरल आकारभूत किमती लागू केल्ल्याम तेचद्वारा शेताकन्यांचे अर्थिक शोषण रूढिल, जशी ओशेता आहे. आज देशत २.५ दशलक्ष टन कडधान्याचो व ७० टक्के तेतबियापाचो आयात होवें. देशवाडेर जागण्या या पैसांचा ओष ना कितीकील आधारभूत किमतीकडे वळविल्ल्याम आमलो जावननिर्भरता वाडोस लागेल व शेताकन्यांचो भले होईल, अशी ओशेता आहे. शेताकन्यांचो जागण्या आस्मानस नाहीत

केंद्र सरकारने जागतिक बँक, युरोप व अमेरिकेच्या दबावाखाली व खासगी उद्योगपतींना मदत देण्यासाठी नव्या रोकटकी कायद्याचा अंमलबजावणी पोन्ना बनविल्याचे रोकटक्यांचे म्हणणे आहे. अमेरिका-ऑस्ट्रेलियाच्या धर्तीवर शेतीचे खासगीकरण भारतात होईल, अशी भीती रोकटकी व्यक्त करत आहेत. निवडमान चिचोत रेशी शेवत अधिकधिक मुक्तपुतीची गरज असून ती गरज खासावे सेवाकट्टन दलवून आल्यावांगैत बीना दललप्याचा सरकारचा कल दिसतो. धोडक्यात कुडी शेतातून निवृतवयूक वकून या शेताचे जासगीकरण होईल.

जिणे ज्यादा फायदा तीस पिके उत्पादित करून तेव्हाचाने आधारित एकल पिकाकडे वळून, कौटुंबीक व्यवसायाकडून - पदेवाईक प्रकृतीच्या वाटचालीकडे सरकारचा कल दिसतो. शेतकऱ्यांना दलालांच्या चलापातून बांधून कंत्राटी शेत्यांचे भूत आपण शेतकऱ्यांच्या मागील मारतो आहोत. याचा सरकारला विमर पडला आहे.

आज भारतातील लागवडीसाठी ८६ टक्क्यांहून अधिक शेतकरी अन्य पृष्ठांक (पाच एकराहून कमी शेती) शेतकन्यायांवर पिकवती घात, नवीन काकडे अशा लहान शेतकन्यांचे हित साधू शकणार नाहीत. कारण मोठ्या कंपन्यांशी सौर्याची कसपाटातच पल्लो घालण्याकडे भरणाऱ्या शेतकन्या नाही. आधारभूत किमतीच्या अपावी छोट्या शेतकन्यांना कंपन्यांच्या कडाने उत्पादन करावे लागेल व किमता वातावरणानेही अनैसा करता येणारी नाही. आंदोलनकर्त्या शेतकन्यांना किमान ह्मभावाची तरतूद कायदात हवी, आपल्या हितरक्षणासाठीच. शेवटी सरकार शेतकन्यांचे हित पाहिले की, कंपन्यांचे वाढी निर्बंध लवकरच आहेत अशी आशा

स्थानिकांना रोजगार देण्याच्या बहाण्याने राज्यकर्त्यांनी पुन्हा एकदा राजकीय पोळी भाजली. 'स्थानिक' विरुद्ध 'बाहेर'चे

असा चाद पेटल्यानंतर शेतकऱ्यांच्या आंदोलनात असलेले लक्ष विचलित करण्याचा डावही त्यामागे आहेच. हरियाणातील बेरोजगारांना फायदा होवो अथवा न होवो हरियाणातील राजकर्त्यांचा फायदा यातून नक्की होईल, हे या धोरणामागचे गणित आहे.

हरियाणा राज्याच्या मा. राज्यपाल महोदयांनी मुंबईचे गलगी मंत्रू झालेल्या विप्रेषकास मान्यता देऊन देशात एका मोठ्या बांधाला तोंड मोकळे. राज्य सरकारने आपल्या सरकारातील विप्रेषक जननायक जना पार्टी निवडणूक काळात खाली खेलात ७५ टक्के नेकरी आरक्षण देण्याचे आश्वासन पालव हा निर्णय घेतला आहे. स्थानिक तरुणांना रोजगार उपलब्ध करून देण्याच्या हेतूने हे विप्रेषक लष्कराचे अधिसूचित होत असतानाच उद्योग संस्थांनी या निर्णयावर तोंड विरोध दाखविला आहे.

नवे रोजगार धोरण अधिसूचित करण्यासाठी हरियाणा राज्य सरकारने घोषवेल सध्या आहे, असे म्हणजे तगेल. अलिखितच झालेल्या आकडेवारीनुसार, हरियाणा राज्यामध्ये देशातील सर्वाधिक बेरोजगारीचा दर दिसून आला. केवळ २०२१ च्या हरियाणा राज्यातील बेरोजगारीच्या दरात वाढ होऊन राष्ट्रीय ६.९ टक्के दराच्या तुलनेत २५.४ टक्के असून, ही देशातील सर्वाधिक व राष्ट्रीय तुलनेच्या तीन पट उरते.

स्थानिकांना प्राधान्य :

'स्थानिकांना रोजगार ह्या विषयेवर २०२०' हा हरियाणा राज्यातील संघर्ष कायदा खासगी क्षेत्रातील नेकरीत स्थानिक होतकरांना ७५ टक्के संधी देण्याची हमी देतो. दरमहा ५०,००० रक्कमचा कमी पगाराची सुविधा असणाऱ्या रोजगार संधीसाठी ही हमी दिशी जाणार असून, यामुळे स्थानिकांना रोजगार मिळावा हा त्यामाग होत आहे. बरील ह्या रोजगार संधीतील उल्लेखाने १० टक्के भरती हो. स्थानिक जिल्ह्यातील तरुणांनाच देणे आवश्यक असून, उर्वरित कोटा राज्यातील इतर जिल्ह्यांमधून भरला जाऊ शकतो. रोजगारात चार होण्यासाठी एखाद्या व्यक्तीचा जन्म हरियाणातच व्हायला ह्या किंवा किमान १५ वर्षे वास्तव असल्याना 'स्थानिक' अशी व्याख्या केली गेली आहे.

उपेक्षाने सरकारी मान्यता घेतल्यानंतरच कोटी रुपयांची फायदा देण्यात आली आहे. पाच उपेक्षार इतक्या नवत्याच स्थानिक उपेक्षाने प्रशिक्षण देण्याची अट घातली गेली आहे. नवीन रोजगार धोरण स्थानिक बेरोजगारीच्या आकडेवारीला आकडे घालून दुसऱ्या राज्यात रोजगार संधी शोधण्याच्या 'बाहेरील' उपेक्षाने आळा घालत अशी ओक्षा आहे. स्थलांतरामुळे स्थानिक राहणूक सुविधांचे केलात ताम, वाढत्याच्या प्रपंडासाठी व स्थानिक उपेक्षानेच येणारे बेरोजगारीचे संकट दूर करेल, अशी आशा आहे. नवीन धोरण पुढील ५५ वर्षासाठी लागू असेल व ते खासगी कंपन्या, सोसायट्या, ट्रस्ट व पाणीदाती अस्थांनास लागू होईल.

उद्योगांवर दुर्गामी धरिणाम :

कोट पोलाचा हेतू स्पष्ट व क्षेत्र असला तरीही राष्ट्रीय राजधानी परिसराच्या (नॅशनल कैपिटल रिजन) भाग असलेल्या

गुडग्राम, करिगबाद, मणसा व रेवाडी या ग्रहणमधील असल्याने त्याचे दुर्गामी धरिणाम संभवतात. या शहरांमध्ये देशातील सर्वात मोठ्या काढून माहिती तंत्रज्ञान, माहिती सेवा अस्थान, परिधान व तस्त्रोद्योग उद्योगांच्या कंपन्या आहेत. त्या विषयक व्यवसाय करतात. या कंपन्या देशातील सर्वोत्कृष्ट कौशल्ययुक्त असलेले मानवी संसाधने आकृष्ट करतात. देशभरातील अत्यंत कुशल कामगार बलाचा वापर करीत हे उद्योग जगातच काळारपेढेत कायद्यात देण्याची उत्कृष्ट उपबंदने, सेवा व संसाधने तयार करतात व त्यासाठी आकृष्ट गजालेनुसार संपूर्ण देशभरातून उमेदवार निवडतात.

उद्योग संस्थांच्या म्हणण्यानुसार, काढून उपादान क्षेत्रातील एकूण ७५ टक्के कामगार, तस्त्रोद्योग व फॅशन उद्योगातील ९० टक्के कामगार, माहिती तंत्रज्ञान क्षेत्रातील ८० टक्के, निर्मिती व बांधकाम क्षेत्रातील ८५ टक्के का किराया व किरकोळ क्षेत्रातील कामगार बाहेरील राज्यांमधून घेतले गेले आहेत. स्थलांतरक औद्योगिक गुणवत्ता बांधीसाठी गुणवत्ता अधीन कामगारांना संधी दिली जाते. 'स्थानिक' किंवा 'बाहेरील' या तत्वावर नव्हे, अशी उद्योग क्षेत्राची प्रतिक्रिया असते.

बांधी आव्हाने :

अपेक्षेप्रमाणे उद्योग संघ, खासगी कंपन्या व विद्यमान कर्मचाऱ्यांना बरील धोरणाचे अत्यंतच कष्ट टाकले आहे. इतर राज्यांनी या धोरणास अनुसरून अनुक्रमे केल्यास देशातील सार्वभौमत्व व एकात्मता धोखाटत अण्णारे राजकारण सुरू होईल, अशी भीती व्यक्त होत आहे.

स्थानिक पातळीवर त्याच कौशल्य संघामत नवीन मनुष्यबळ उत्पन्न होतील की नाही, हे आता हरियाणासाठी मोठे आव्हान असेल. गेल्या एक-दोन दशकात चीन, बांगलादेश, व्हिएतनाम आणि थायलंडमधील व्यवसाय, उद्योग धंदे हरियाणातच स्थलांतरित झाले व या राज्याला उद्योग-अनुकूल राज्य म्हणून विश्वास मान्यता मिळाली. व्यवसायाधिपुष्ट लोकिक प्राप्त असलेल्या राज्यात विशिष्ट कौशल्य शमता आवश्यक असलेल्या मानव संसाधनांना आकृष्ट करणे नवितकाला काळजळ मोठे आव्हान ठरेल. रोजगारीवर माफीदा असल्याना राज्यात व्यवसाय सुलभीकरण कामे असेल, अशी भिती असताना इतर राज्यात व्यवसाय स्थलांतरित होण्याची शक्यता नास्ततत येणार नाही. कामगारांच्या स्थलांतर हाताकड्यावर मर्यादा आपणे, कामगार बाजारपेठेच्या जाडीवर मर्यादा आणणारे उरले व ही बांधीक अर्थसंरचनासाठी धोकादायक आहे.

अशातच रोजगार धोरणामुळे व्यवसायाचे स्थलांतर झाल्यास राज्याच्या एकंदरीत नाकलीडीकावर

बहु खोलेल व जोडीतक बांधीने केंद्रस्थान. प्रथे बांधीधोरण राज्य लवतून यमेल २०२१ साली आंध्रप्रदेश विधानसभेने खासगी औद्योगिक क्षेत्रासाठी स्थानिकांच्या ७५ टक्के आरक्षण लागू करणारे विधानक पट्टा केले होते. असे पाठवले उद्योगांवर ते पहिले राज्य ठरले. मोठे माकार पाठोपाठ महाराष्ट्र सरकारने खासगी अस्थांपासून ८० टक्के आरक्षणाचा विचार घेतला. माहिती उद्योग क्षेत्रात मोठा उदरता असल्याच्या कर्नाटक राज्यात २०२० साली खासगी क्षेत्रात नेकरीसाठी स्थानिकांना आरक्षण देण्याचा निर्णय झालेला. भाजवताक्षित मध्यप्रदेश राज्यात राज्यातील शास्त्रेणु दहावी व बारावी उत्तीर्ण झालेल्यामंडळीय सरकारी क्षेत्रात राष्ट्रीय उद्योगाचा निर्णय झाला आहे. मध्यप्रदेशातील नव आधीच्या कॅडिम सरकारच्या काळात राज्यातील उद्योग क्षेत्रात ७० टक्के आरक्षण देण्याची घोषणाही आली होती.

धोरण राजकीय की आर्थिक :

विद्यमान धोरणाचा हेतू रोजगारपट्टा व स्थानिक हक्कांचे रक्षण करण्यात असे दिसता तरीही आर्थिक रणनीतीपेक्षाही ती राजकीय चाल आहे, असे सरकाराचे दिसतेच. या कल्पनेतून तयारवलेली कसोटीही हे धोरण पार करू शकणार नाही हे वास्तव आहे. रोजगारातील स्थानिकांसाठी आरक्षण हे धोरण गुंतवलेल्या आदर्शाना पराभूत करतोच तर देशातील आर्थिक पुनर्रुतीच्या प्रयत्नांनाही खोल घडते. उद्योगांच्या लोभक्षित हे धोरण 'आपत्ति' तर कायदेतज्ज्ञांच्या भावेत ते 'असंवेदनिक' ठरवे. आपल्या राजपट्टेच्या कलम १६ (२) आणि (३) अनुसार 'स्थानिक' मुळावर रोजगारात घेण्यावर करणे मुलभूत हक्कांचे उल्लंघन ठरते. कलम १४ व १९ मध्ये निर्दिष्ट केलेल्या समानतेच्या अधिकाराचे व प्रत्येक नागरिकास देशाच्या कोणत्याही भागात काम करण्याच्या अधिकारावर ह्या आरण्याचे कार्य बरील धोरणाने केले आहे.

बरील धोरण विषयीच आदेश हरियाणा सरकारने जुलै २०२० मध्ये पळोवडालात घडून केले होते. पाप, पा. राज्यसंघातील से पा. राष्ट्रसंघाच्या विचारामादी राखून ठेवला होता. केवळ कामगार व रोजगार पंगालांमने या धोरणाचा आडवा घेतल्यानंतर हरियाणा सरकारने हे धोरण शिरोपटीत टाकले. हरियाणात शेतकऱ्यांच्या आंदोलनाने धम भरल्यानंतर आपाहोनेच जननायक जनात पक्षकार महाआवादीतून बाहेर पडण्याचा दबाव निर्माण झाला. ही युती अर्थात उभेत पावी म्हणून जननायक पक्षाच्या बाहीरान्यातील हा विषय ह्यावाचा मंत्रीमंडळाच्या मान्यतेने मा. राज्यसंघासंपर्क आला व त्याने त्यास तबरेत मान्यता देऊन टाकली.

स्थानिकांना रोजगार देण्याच्या बहाण्याने राज्यकर्त्यांनी पुन्हा एकदा राजकीय पोळी भाजली. 'स्थानिक' विरुद्ध 'बाहेर'चे असा चाद पेटल्यानंतर शेतकऱ्यांच्या आंदोलनात असलेले लक्ष विचलित करण्याचा डावही त्यामागे आहेच. हरियाणातील बेरोजगारीचा फायदा होवो अथवा न होवो हरियाणातील राजकर्त्यांचा फायदा यातून नक्की होईल, हे या धोरणामागचे गणित आहे.

Dear Principal,

The Directorate has planned for training sessions on OBS software that is used for live recording of lecture sessions as per the following schedule. We request you to check the slot and the number of seats allotted to your college and accordingly get your faculty registered. The details of the instructors are given in the form itself. The registered faculty will be master trainers and are then expected to train the other faculty in your college on the software. The slots allotted to your college is given here:

Form for registration:

<https://forms.gle/5cRpDY1wB8Y94mez6>

The faculty attending the sessions is expected to be conversant with using the laptop and should get the OBS installed on their laptop before coming to the session from the link below

<https://obsproject.com/> (check for appropriate version based on your laptop configuration).

For further queries contact the undersigned.

Thanks and Regards,
