# VOTERS AWARENESS RALLY: CS Pasticipast

In democracy, it is not simply enough to inform voters about election dates. In order to help the electorates take an informed decision, it is quintessential to sensitize them about the importance of participating in the electoral process. Moreover, voters need to be educated about the process and made aware of the political parties, their manifestos, hackgrounds of the contesting candidates and armed with several other information to help them cast an 'enlightened' vote.

In this connection, in association with the Office of the Mamlatdar Canacona Taluka, a Rally was organized to create awareness about Voters Awareness Rally was conducted on 22<sup>rd</sup> Sept. 2016.

## TEACHERS DAY

Since 1962, India has been celebrating Jeacher's Day on 5<sup>th</sup> September as a symbol of tribute and honor to the contribution made by teachers to the society. Respected among society, teachers have played an important role in the development of a person. They are expable to influence and mold student positively. Frezy student celebrates this day to encourage and support the contribution of his or her teacher. Children are the country's future, hance they need to be positively nurtured and that ids done last by teachers. Jeachers enlighten students and shape their certain.

The day marks as a day of gratitude and respect to the selfless "firsts of teachers. This day is also celebrated to honor Dr. Rodhakrishnan, the great teacher, academic philosopher and India's second president as he was born on the same day in 1888. Dr. Rodhakrishnan was a strong supporter of education. Instead of celebrating his birthday separately he requested to observe the day as Jeachers day in India. This appeal demonstrated his love for the teaching profession and since then 5" September is celebrated as Jeachers Day in India.

On the occasion of Jeachers day, various cultural programs and estivities take place on schools, senior students dress up as teachers and take up their role giving out lectures and teaching the student of primary level. By doing so, the students get a hand on experience and realize how it feels to be teacher. In some schools feast are erranged and in some reunions are organized between the old students and teachers. People call up their childhood teachers and let them know that they are still remembered, giving them immense happiness and appreciating them for all that they did for them.

Most students offer gifts like greeting cards, flowers, chocolates, pens, show pieces, books etc. to their teachers on this special conssion. A gift reflects the love and respect for the teachers by the students. Each one of us has been a student at some point of our lives, therefore Jeachers Day should be celebrated by all of us and not just the teachers and students alone.

Happy Teachers Day

Teacher a friend/////

Gone are the days when a teacher used to enter the class with a stick in the hand. The students use to get rigid with the fear. But still the teacher was respected and placed on a pedestal. If our teacher tries to be good to us, we like that but what follows is lethargy in carrying an instruction. If she is discipline oriented, she will began to try some tactics or punish to that indiscipline. As we curse the teacher and don't see about our own mistake that we don't complete the given work on time. On the other hand the teacher who cares less for discipline and carry on with the syllabus then who is the looser???? It's youIII You who could have benefited a lot from teachers instruction or other manners, but if don't then we are the looser.

So what is the winning situation???

Be responsible and disciplined. Carry out instruction on time and study and the thing is you are your teacher's pet! Go to him at any time at with any problem he is always there to solve your difficulties not only study related but also personal problems.

Give respect to your teacher and get the greatest blessing in return and fill your life with colorful teachings.

## About teachers

Dear teachers. Good Morning and happy teacher's day. Your commitment, your devotion to duty, your attachment to the school, your love for the students entrusted to your care Were the signs of growth and progress.

You have seen in the history of mankind that all the great spiritual teachers have denied themselves personal luxuries, comforts and rewards, have abjured temporal power, and have lived and taught the limitless and impersonal truth.

When I am called to speak to you on teachers' day like this, I have mixed feelings of uneasiness as well as joy, uneasiness because I have not reached up to my own expectation, joy because I can feel the energy of selfiess service, ability to go beyond. 'Self,' I mean to deny that self for the cause of the other, that is the students with whom we come into contact every day. I feel proud of your achievements, I feel really happy to be among you to walk with you to take our school and children to greater excellence in education and in their growth as persons, fully human and fully alive.

An anonymous author writes, "Learning is the first and last business of every growing-dying, time bound finite person." In resonance with the author, dear teachers, I learn, day after day.

I am extremely privileged to be learning invaluable and life giving lessons from this school. I have learnt that you are very dedicated and pardworking ". In your teaching profession.

18

Time and again, you have proved that teaching goes far beyond merely imparting information to the students. Utilizing your teaching skills and human sensitivities, you have helped students to understand, evaluate, and then apply relevant information to coping with their particular life situations.

Students' experiences of academic success are, certainly, a product of the Interaction between the teachers' background and ability to relate to students of various cultural backgrounds and cognitive and non-cognitive resources. I recognize your role in this educational process. Our children are exposed to a combined agenda, focusing both on the elaboration of skills and on the acquisition of behaviors that are associated with grand success in St. Antony's culture.

Our students are exposed to teachers who provide models for commitment to learning. I recognize your own skills that give children more sense of how much more there is to learn. Your preparations, presentations and followup, therefore, provide opportunities for a workable learning model to the students.

b

,

Our students are at a stage of intellectual development that permits them to grasp the fundamental principles of the problems that the school and society poses for them. I recognize your academic and personal w accompaniment in this process.

The art of teaching lies in presenting problems at an accepted level of complexity that is meaningful and life oriented. But you teachers, you take to believe that what is true for you in your private heart is true for all men - that is genius

Take this genius and apply it in your life. Another genius tells us just how to do this. Thomas Edison said, Genius is one percent and ninety nine percent perspiration." Are we sweating yet?

Let us pray together for this awareness to be working hard, may God bless us with enough graces and blessings to be men for others, ever striving in His service.

# A Teacher like You

I have had nowhere to turn I had a lot to learn not just about math science and English about life

But you listen and never told I have never known what that felt like before I remember when I would sit and sob on the floor Then you came and guided me

Too bad this is my last year at this school Beems just like yesterday I walked into your 7th grade class Boy that was a blast Too bad walking down the hall will be my last

> But now I'm going to 9th grade going to a whole new school But I will always keep that simple rule live your life

but when I walk into that brand new place I always remember your sweet smiling face the face that gave me strength and courage to keep going keep moving don't let anything stop me

I hope this doesn't mean that we can never talk I hope we keep in touch so I won't end up alone sitting on the floor again and all I could do was mean

So thank you for being my friend I am so sad that our trust may have to end

Not Just a Teacher But A Friend

I had nowhere to turn, had nowhere to go, this is just something I think you need to know I don't know what made me trust you I still remember the day when I told you what I've been through I thought I should run away, go hide in a hole but then you really brought out my true soul

> As each day grew longer our trust became stronger each time I wanted to cry you stayed there right by my side

then I moved to the next grade Boy was I afraid that our trust would slowly fade but I was wrong we are still strong even though sometimes you don't have time you at least ask me if I am fine even though sometimes I am not I feel like I have just been shot I smile and say yes I'm alright then I walk away and you're out of sight I'll just have to wait I still have my fate

l am so glad that you were there when I was sad and this is what makes you Not just my 7th grade teacher, my friend

Good Guide

A smart and readly good teacher should be a good guide, not a preacher She'd open each mind Therein treasures to find, Encouragement would be her best feature You have this good quality and more, You inspire each brain to explore. Our respect you are earning, You're made us love learning, As no teacher has before.

# WONDERFUL TEACHER

With a special gift for learning And with a heart that deeply cares, You add a lot of love To everything you share, And even though You mean a lot You'll never know how much, For you helped To change the world Through every life you touched. You sparked the creativity in the students, whom you thought, And helped them strive for goals That could not be bought, You are such a special teacher That no words can truly tell How much you are valued For the work you do so well.

# Dedicated to my teachers

It is true that the birth is given by the mother but proper direction is given by a teacher. When we light & bright in the society we proudly says that, we are the product of particular institution. When a child goes 1" time in the school the teacher who holds her/his hand & teaches a new things which she/he never knows it before. You are the one who always being supportive, loving, caring, inspiration of ours for everything.

While teaching economics, the cracking of jokes of students & your 90 degree smile + lough. I just wait for that time, while solving accounts problems so cool manner and & suddenly students make disturbance at last minutes it don't gives satisfaction to my heart every time you become upset while leaving the class.

Sections & laws- every time I wait for this lecture to listen to your illustrations & I give most attention in the class. When certain jokes cracks you only get confused it was a really a joke? No one gives response but after a while we all laugh. For advertising lecture the way of softness of your teaching I just love to sit for an hour's & hours. When the time comes of business finance no rest to pen & hand when we do something for teacher it gives relief of doing something better. When you get hurt it feels oh god what mistake incurred from us. We often say that teacher also get better salary & why they should rule on us but We don't know the fact behind it, you are the one who awake till late night for preparing notes & gets up in the morning to provide us better knowledge. You stay away from your family, friends & children. O teacher you are the mixture of each & every talent. When you ask personally the difficulties of students it gives pleasure,

HA OKAY! As someone is there to understand us which sometimes our parents don't. You are the person who has a good frame as well as good picture with beautiful fragrance. By: Naha Kaskar (S.Y.B.com)

## Re: Invitation to the inauguration of Chetana Mental Health Clinic

Sangath is a non-governmental, not-for-profit organisation committed to improving health across the life span by empowering existing community resources to provide appropriate physical, psychological and social theraples.

Sangath engages in a range of projects to make mental healthcare accessible to the community. Chetana Community Mental Health Programme at Canacona is one such project. This clinic will make free mental healthcare available to the people of Canacona, which has no other feasible options of mental health care. One of the most innovative aspects of our work through this clinic will be that we are training and supervising members of the local community to deliver mental healthcare at the people's door-steps. We have successfully used this strategy through our years of work in Sangath, and anticipate that it will be a positive change for health care delivery in Gca. We will also engage extensively with the local community; with the aim of creating awareness about mental health and illness.

We are inaugurating 'Chetana Community Mental Health Programme' at Shreesthal Panchayat Hall, Canacona on Wednesday, January 3 at 11.00 am. Prof Vikram Patel, cofounder of Sangath will deliver the keynote address on this occasion.

We would like to invite for this inaugural event, and hope that you will honour our invitation and oblige us.

Sincerely,

Dr Abhijit Nadkarni Research Fellow and Hon Consultant Psychiatrist Sangath

#### faculty and students

The Department of Sociology of Shree Mallikarjun College of Arts, Commerce and Science organised a talk by Shri Kamlakar Mhalshi on 'Responsible Citizens' as a part of T. B. Cunha Civic Club lecture series on 23.01.2019. Shri. Kamalakar Mhalsi is an eminent personality and acting Principal of Balram Higher Secondary School, Canacona. Shri Mhalshi has contributed enormously to field of culture and language and has been a key figure in documenting the socio cultural profile of the taluka of Canacona.

Dr, Arvind N, Haldankar, Head Department of Sociology introduced and welcomed the speaker. Dr. Haldankar reflected on the on-going contribution of Shri Mhalshi in the different fields, and especially in the domain of education. Mhalshi began his lecture on a

beautiful note demonstrating, as to why Goa remains a preferred tourist destination for rest of the world. He mentioned, it is only not the environment or ecology that pulls any person to this state, but moreover, it is the people who are more dearly and always ready to welcome people. This dearly nature and welcoming personality of many men and women is one of the instrumental factors for people pouring down in Goa heavily for not merely visiting it but also permanently settling for the rest of their life. It reflects a universal gesture of embracing humanity breaking barriers of man-made distinctions such as caute, religion, etc. Undoubtedly, the Goans at some point of time displayed the feature of benevolence, respect and openness in their lifeblood and culture.

The modern times however have manifested changes among the Goans. We seem to miss out some aspects of our cultural understanding, responsibilities, respect that our ancestor had earned for generations. We should hold on to our responsibilities by inculcating good values which our ancestors earned of respecting others. Mhalshi further spoke about the duties of citizens and the competing challenges the youth need to confront in their day to day lives. As responsible citizens, the educated youth of the country need to think and create alternative options for self-employment, he opined.

Ms. Abigal Barreto President of civic club compered the program and thanked the gathering and the speaker Mhalshi. Program was coordinated under the guidance of Dr. Arvind N. Haldankar HOD and Ms. Vthai Zaraunkar, Asst. Prof. Sociology.

## Lecture on Gender Equity

i'v

Department of Sociology organised a talk on 'Gender Equaity' by Advocate Ms. Deepali Agrasani on 05.04.19. Dr. Arvind N. Haldankar, HOD sociology welcomed and introduced the Guest speaker. Ms Agrasani focused on types of inequalities existing in our society at different places in different forms. The three types of gender inequalities are national gender inequality, household inequality, and property inequality. The speaker explained the above forms of inequalities with lucid examples. One of the examples of household gender inequality was her maid being left by her husband only because she was unable to give birth to baby bey. This example portrays the kind of a declining value and blame, our society' attaches to women. Presently, the Indian society demonstrates a mixed bag of attitudes towards women. While some cultures are very liberal there are others where the discriminatory practices are on a rise, she added. The people of Goa are fortunate enough to avail of egalitarian laws such as the Uniform Civil Code. The law is upheld hitherto even when Portuguese regime has come to an end a long time ago.

Secondly, the speaker explained the importance of Domestic Violence Act 2005 ensuring protection for women in the household domain. She also spoke on the trajectory of law and the procedural hindrances confronted by women especially the illiterate ones. Ms Agrasani stressed the need to have efficient legal systems in place to facilitative justice in a speedy manner. A total of 35 students attended the programme. The students interacted well with the speaker towards the end receiving convincing replies from the legal expert. Ms. Vithai Zaraunker, Asst. Prof. Sociology proposed the vote of thanks.
