If you put your life in danger, you can end up fighting for your OWN life instead of the casualty's. Prevent the situation from Worsening The skilled first aider must take action to prevent the whole situation from becoming worse (e.g. removing dangers such as traffic or fumes), as well as acting to prevent the casualty's condition from deteriorating. Promote Recovery The actions of a first aider should, after preventing things from getting worse, help the casualty to recover from their illness or injury.
