**Sub: Traffic Sentinel Scheme...**

Sir,

Due to rise in vehicular population the rate of accidents on the existing road network, which has not been proportionately developed is a matter of concern. Moreover, violations of traffic laws are also increasing and it is not feasible to detail traffic staff at each and every corner to enable and encourage citizens to participate/assist in enforcement of traffic laws due to limited manpower. Therefore to create road safety awareness, Goa Traffic Police in enforcement of traffic laws and to create road safety awareness, Goa Police has introduced "Traffic Sentinel Scheme".

As a part of community policing active participation of citizens through "Traffic Sentinel Scheme" is being sought on WhatsApp No. 7875756110. Under this scheme the citizens after getting registered with Goa Traffic Police can report various types of traffic violations through WhatsApp Messenger. For each traffic violation reported, the member gets reward points. Once the registered member accumulates 100 points he/she is rewarded with Rs. 1,000/-.

This scheme has played a major role in creating road safety awareness and prosecuting traffic violators. It has also proved to be an incentive scheme for citizens. It is therefore requested to apprise all the students of your college about this innovative scheme and appeal them to register themselves under this scheme. Enclosed herewith is a pamphlet in this regard. It is requested to display the same at prominent location in your college.

## Health and Ethnomedicine

Health is understood as a stage of complete physical, mental and social well being and not merely the absence of disease and deformity. When we speak about health, medicine plays an important role. The ailing ones (Human as well as the other living organisms) require medicine to cure the disease they suffer from. Added to the big list of typology of medicines, Ethnomedicine is also a recognized form of medicine, which is by and large persisting among the primitive cultures.

Ethnomedicine is a term that refers to a wide range of healthcare systems or structures, practices, beliefs and therapeutic techniques that arise from indigenous cultural development. It is also taken to mean the study of those systems and techniques more so from the sense of placing them into an anthropological context rather than evaluating their effectiveness using the scientific method. It is not only limited to the obvious things like using indigenous plants and ingredients to treat as sick. It also involves studying or utilizing how a disease/ illness arises, according to the native cultural point of view, Indigenous beliefs about what a persons signs and symptoms really mean, The best way by which a disorder should be managed and who should manage it and how. Ethnomedical systems tend to see the mind and body as one entity and they focus on preventive techniques.

The Course work in Sociology for the First Year BA looks into institutional aspects pertaining to health. We consider the resource inputs of the speaker will benefit our students in understanding the need and importance of ethnomedicine in our life.

Dear

**Re: Invitation to the inauguration of Chetana Mental Health Clinic**

Sangath is a non-governmental, not-for-profit organisation committed to improving health across the life span by empowering existing community resources to provide appropriate physical, psychological and social therapies.

Sangath engages in a range of projects to make mental healthcare accessible to the community. Chetana Community Mental Health Programme at Canacona is one such project. This clinic will make free mental healthcare available to the people of Canacona, which has no other feasible options of mental health care. One of the most innovative aspects of our work through this clinic will be that we are training and supervising members of the local community to deliver mental healthcare at the people's door-steps. We have successfully used this strategy through our years of work in Sangath, and anticipate that it will be a positive change for health care delivery in Goa. We will also engage extensively with the local community; with the aim of creating awareness about mental health and illness.

We are inaugurating 'Chetana Community Mental Health Programme' at Shreesthal Panchayat Hall, Canacona on Wednesday, January 3 at 11.00 am. Prof Vikram Patel, co-founder of Sangath will deliver the keynote address on this occasion.

We would like to invite for this inaugural event, and hope that you will honour our invitation and oblige us.

Sincerely,

Dr Abhijit Nadkarni

Dear

**Re: Invitation to the inauguration of Chetana Mental Health Clinic**

Sangath is a non-governmental, not-for-profit organisation committed to improving health across the life span by empowering existing community resources to provide appropriate physical, psychological and social therapies.

Sangath engages in a range of projects to make mental healthcare accessible to the community. Chetana Community Mental Health Programme at Canacona is one such project. This clinic will make free mental healthcare available to the people of Canacona, which has no other feasible options of mental health care. One of the most innovative aspects of our work through this clinic will be that we are training and supervising members of the local community to deliver mental healthcare at the people's door-steps. We have successfully used this strategy through our years of work in Sangath, and anticipate that it will be a positive change for health care delivery in Goa. We will also engage extensively with the local community; with the aim of creating awareness about mental health and illness.

We are inaugurating 'Chetana Community Mental Health Programme' at Shreesthal Panchayat Hall, Canacona on Wednesday, January 3 at 11.00 am. Prof Vikram Patel, co-founder of Sangath will deliver the keynote address on this occasion.

We would like to invite for this inaugural event, and hope that you will honour our invitation and oblige us.

Sincerely,

Dr Abhijit Nadkarni  
Research Fellow and Hon Consultant Psychiatrist  
Sangath

**Chetana Health Clinic**

The advisory members suggested to seek the involvement of local Member of Legislative Assembly Shri Isidore Fernandes. It was decided to depute five volunteers from the college to assist the activity. Awareness modes such as college, press report, press inserts, street plays, and banners were also discussed.
